Tow Hitch spares availability in South Africa?

It is truly amazing how easily the wrong information circulates, and how difficult it can be to get the correct information to the people who will benefit most.

It has come to my attention in my travels to end-users all over the country that the perception has been created that there are no spares available for tow-hitches. I can only speak for **Jost / Rockinger Hitches**, but I can assure you that spares are most definitely available for **Jost / Rockinger Tow-Hitches**.

Rockinger Spares shelve at Jost

Let's get the stock to talk for themselves, this is a small sample of randomly pictured items:
